Applicant: Matsuura, et al.  
Application No.: 10/533,553  
International Filing Date: October 28, 2003  
Title: DEVICE AND METHOD FOR CONTROLLED EXPRESSION OF GASES FROM  
MEDICAL FLUIDS DELIVERY SYSTEMS  
Attorney Docket No.: 355908-8201  
Pub. No.: US 2006/0111667 A1  
Pub. Date: May 25, 2006

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on July 25, 2006, for the above-identified application.

The request is granted.

The corrected patent application publication will be published in due course, unless the patent issues before the application is republished.

Applicant is advised that he may want to file application papers that are clearer, as the errors may be due to the quality of the text. The text in the application is small, which makes it difficult to read and to electronically reproduce by digital imaging and optical character recognition. Applicants have been advised to file applications having cleaner and larger text with sufficient clarity and contrast to permit reproduction, such as electronic reproduction by digital imaging and optical character recognition, which will avoid errors in the patent application publication process. See 37 CFR 1.52.

Inquiries relating to this matter may be directed to Mark O. Polutta at (571) 272-7709.
